

DR-DMX-5CH-DEC - 5 Channel Digital DMX Decoder

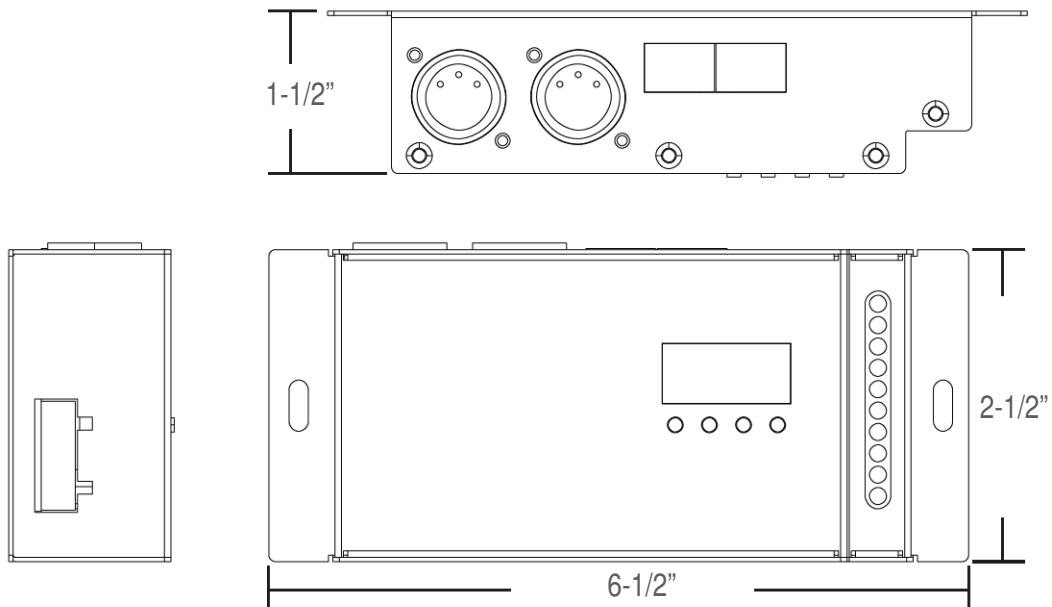

Date: \_\_\_\_\_ Job: \_\_\_\_\_ Type: \_\_\_\_\_  
 Notes: \_\_\_\_\_ Quantity: \_\_\_\_\_

The DR-DMX-5CH-DEC is a 5 channel digital decoder that allows a DMX controller to tell your color changing LED load what to do. You can either hard wire your DMX connections or choose from XLR DMX or RJ45 cables to communicate from your DMX controller to the decoder. Each decoder will require a 12VDC or 24VDC driver to power the load it handles.
